PROFESSIONAL SUMMARY

Full-Stack MERN Developer with 3+ years of hands-on experience designing, developing, and deploying scalable web applications. Proven track record delivering production-grade SaaS platforms, integrating third-party payment gateways (PhonePe, PayPal), and optimizing UI/UX for improved user engagement. Experienced in Agile/SDLC environments with strong skills in REST API integration, MongoDB data management, JWT-based authentication, and performance optimization. Adept at cross-functional collaboration and technical mentorship.

TECHNICAL SKILLS

Frontend: React.js, HTML5, CSS3, Bootstrap, JavaScript (ES6+)

Backend: Node.js, Express.js

Database: MongoDB, MySQL, SQL, NoSQL

Stack: MERN (MongoDB, Express.js, React.js, Node.js)

Tools & DevOps: Git, GitHub, Bitbucket, Jira, Swagger, MS Office, Postman

Payments & APIs: PhonePe API, PayPal API, REST API integration

Languages: JavaScript, Python, C, C++

Other: JWT Authentication, Role-Based Access Control, Data Visualization, Excel/Data Analysis

PROFESSIONAL EXPERIENCE

Technical Support Engineer / MERN Developer | AIIMS Jodhpur

Feb 2025 – Aug 2025

Contractual | Tribal Health Project — <https://aiimsjodhpur.org/tribal/>

- Developed and maintained the Tribal Health Project web application using the MERN stack, improving healthcare data accessibility for tribal communities.
- Managed end-to-end hosting, deployment, and performance optimization, resulting in improved page load speeds and enhanced UI/UX.
- Performed data management and analysis using Excel, supporting reporting workflows and generating project insights for stakeholders.
- Provided technical support for website, data, and user-reported issues, ensuring high system uptime and client satisfaction.

Associate MERN Stack Developer | Digital Innovation Pvt. Ltd.

Nov 2024 – Jan 2025

Contractual | Remote

- Developed and maintained SaaS web applications using the MERN stack, following Agile development practices.
- Built the Lab-Test booking platform (drpalvelabs.com) featuring PhonePe payment gateway integration, secure transaction handling, and optimized payment flows.
- Engineered a Report Selling SaaS platform (insights.bizwitresearch.com) with admin-managed Excel report uploads and PayPal international payment support.
- Designed and implemented interactive dashboards and data visualizations to deliver actionable insights to end users.
- Resolved API, payment, and user-reported issues through root-cause analysis, reducing support tickets and improving overall UX.

IT Trainer & Associate MERN Stack Developer | Vaneja TECHNOGLOBE IT Solutions Pvt. Ltd. *May 2023 – Oct 2024*

- Delivered structured training in HTML, CSS, JavaScript, C/C++, Python, and full MERN stack to Diploma in Software Development students, emphasizing industry-standard coding practices.
- Designed and developed a production-grade full-stack Job Portal using MERN with JWT authentication, role-based access control (RBAC) for job seekers and employers, and optimized MongoDB queries.
- Mentored students through project-based learning, covering debugging, Git version control, and software development best practices.

Frontend Developer | SYSTRANS Technology Pvt. Ltd. *Jul 2022 – Apr 2023*

- Designed and developed the Disham Pay fintech web application using React.js, enabling secure money transfers, bill payments, and mobile recharges.
- Integrated REST APIs for real-time data exchange and implemented secure payment gateway workflows in collaboration with backend teams.
- Ensured high performance, security compliance, and seamless user experience across devices through responsive design and cross-browser testing.
